Brett, George Sidney = Professor of Philosophy = 1919 (054)

July 16th, 1919

Professor G. S. Brett,

Vice-Chairman, Board of Graduate Studies.

My dear Professor Brett:

In Miss Mackenzie's absence I am writing to you about the Fellowships. If I am not mistaken, and she will verify this on her return, there is one vacancy of an open Fellowship. In view of the strong recommendation and the excellent of Dr. Milton Brown of the University of Alberta I think we should award the last one to him. Acting President Kerr tells me he is an excellent mathematician, one of the best Alberta has ever had. He is heading for higher education and has some savings. He is recommended unreservedly by Dr. Kerr, and with earnestness by Professor Sheldon, the Professor of Mathematics. If the Mathematical Department are willing to take him I think we had better go ahead.

With kind regards, I am,

Yours sincerely,

President.
